This wireframe shows the AURA interface from the TA perspective, displaying a list of queries. The top header bar is grey and contains the text 'AURA' followed by a series of buttons: 'create question' (grey), 'Queries' (orange), 'Slides' (grey), 'Mentor' (grey), 'Resources' (grey), and a user profile icon. Below the header is a white area. It contains a row of three colored buttons: 'Pending' (yellow), 'Answered' (green), and 'Delayed' (red). Below these buttons are two grey input fields, each containing a query ID: '#103 Tech' and '#104 Tech'. Below these fields are two blue rounded rectangular buttons: 'Summarize queries' and 'Respond'. Below these buttons is a section titled 'Auto - Answered Rules:' followed by a grey input field containing the text 'Write answering rules...'. At the bottom of this section is a blue rounded rectangular button with the text 'Configure AI'.

From Instructor perspective:

The wireframe shows a web interface for creating slides. At the top is a navigation bar with five buttons: 'AURA', 'Analytics', 'Questions', 'Slides' (which is highlighted in orange), and 'Discourse'. Below the navigation bar is a main content area. It starts with a text input field containing the placeholder text 'Enter the Topic : backpropagation'. Below this is a list of three items, each preceded by a double colon '::':

- :: 1 Intro to BST
- :: 2 tree traversal
- :: 3 Insert/Delete operation...

Below the list is a button labeled '+ add document for refrence'. At the bottom of the main content area is a text input field with the placeholder text 'How many slides do want?'. Below this input field is a blue button labeled 'Generate Slide'.
